

Services we provide:

We work with you and your Architect to develop an amusement "Master Plan" for your resort.

Plan includes:

- Evaluation of your market
- Evaluation of site conditions
- Selection of ride mix
- Development Plan
- Operational plan
- Construction cost Estimate
- Maintenance schedules
- Track/course design specifications
- Park operation/safety evaluation
- Marketing materials for investors the community and local media.
- Marketing/promotional ideas for obtaining maximum exposure.
- License rights for X-games and professional Luge Racing Events
- Luge racing vehicles for sale and for rent, including: Gravity-Carts,
- Zinger Luge, Skateboards and other gravity powered vehicles (GPV's)
- Replacement parts, licensed racing material

Zinger Luge has assembled a group of leaders from the Amusement Park industry to assure your park development is successful and operationally sound.

Group Associates include:

Rick Ireton – President, Zinger Luge

William J Haralson – President, WHLA & Associates

Rick Hunter – President, ProSlide

Lance Brown – President Enter-Arch Architecture

Marcus Reitima – President, International Gravity Sports Association (IGSA)

Rick Ireton - President Zinger Luge.

Rick brings over 25 years of amusement park experience to this exciting new opportunity. As inventor of SKATEBRAKE technology used on the gravity powered vehicles (GPV's), Rick has laid out a plan to bring recreational LUGE and SKATEBOARDING to the amusement park industry in a FUN, SAFE and PROFITABLE manner.
