

A LANDMARK ATTRACTION FOR YOUR SKI RESORT

Zinger Luge is pleased to offer you a Summer time attraction for your ski resort called a LUGE PARK.

The LUGE PARK concept involves building a variety of smooth paved roads (Luge Tracks) on the lower part of the hill for a new generation of gravity powered carts, street Luge vehicles (and one day skateboards) equipped with a conduction brake system for safe operation.

Skate Luge is Safe, Exciting and just about everyone can do it!

Existing chairlifts will be used to transport riders and Luge vehicles to the top of the hill for an exhilarating ride to the bottom of the hill... to do it again.

Luge Park Benefits:

- SAFE TO OPERATE
- LOW COST RENOVATION.
- HIGH PROFIT OPERATION.
- BROADBASE PUBLIC APPEAL.
- HIGH CAPACITY ATTRACTION.
- MASTER PLAN DESIGN YOU GROW INTO.
- LUGING IS SPECTACULAR ENTERTAINMENT.
- PARK WILL GAIN NATIONAL/INTERNATIONAL RECOGNITION.
- BEAUTIFY YOUR RESORT WITH LUGE RUNS AND LANDSCAPING.
- A LUGE PARK WILL CHANGE THE DYNAMICS OF YOUR SKI RESORT.
- LUGING HAS APPEAL TO LOCAL SKIERS AND SPORTS ENTHUSIAST.
- SPONSORSHIP DOLLARS FOR ADVERTISING AND RACING EVENTS.
- NATURAL TERRAIN/RIDE LENGTH IDEAL FOR EXCITING LUGE ACTION.
- SUMMERTIME ACTION BRINGS YEAR-ROUND ENTERTAINMENT FOR PARK.
- ADD NEW RUNS YEARLY TO CONTINUALLY CAPTURE THE PUBLICS ATTENTION.

ADVANCED SMALL-WHEEL BRAKE TECHNOLOGY:

Recreational Luge riding is made safe due to vehicle design and a patented brake system developed by SkateBrake. The SkateBrake conduction brake system features hand operated brake control, automotive quality brake pads and components to:

1. Insulate wheels from heat generated during braking.
2. Provide smooth and predictable operation.
3. For long lasting performance.
4. Hand operated brake for full speed control.

Red Arrows Indicate Direction of Heat Movement

- THE MORE YOU RIDE - THE BETTER YOU GET -
- THE MORE FUN IT IS TO RIDE -
